Greg,

Please find attached the proposed amendments to the Bull and Pound TMDLs. My understanding, based on discussions with DMME, is that we will

- "accept" the changes to the preface that was written by DMME
- "reject" the remaining changes to the document leaving it as written by BSE
- replace the allocation tables with a text box stating "Allocations can be found in the amendment, titled XXXXX, attached to the end of this document."
- attach the amendment to document, and provide that combined document for public review.

Please let me know if you have questions about any of this. Thank you. - Jim

Joey, Mike,

Was wondering about the status of draft addendum language for the Bull and Pound TMDLs. It would be good to let us review what you have in mind ASAP so we can make a final determination as to whether it will be approvable. Let me know if you need anything on my end.
